Honest take — how to read this list

- **Tier A (Clearwater, Aquarius).** Both clear the 8-min MRT walk, have town gas, helper's rooms in most 3BR floor plans, and 3BR rents that actually have units listed under S\$6k. Start here.
- **Costa Del Sol is the dark horse.** Bayshore TEL (~8 min) and Tanah Merah EWL (~10 min) within walking range — a two-line advantage for the office, and the geographically closest condo to UWC East on the list. The catch is rent: most 3BR listings start at S\$5.5k+.
- **Waterfront cluster (Waves, Isle, Key, Gold).** All sit 10–12 min from Bedok Reservoir MRT — they fail a strict 8-min read of the criterion. Worth viewing only if a specific unit ticks every other box, since the extra 2–4 min of walking adds up over a 2-year lease.
- **Aadya's commute = school bus, no transfers.** UWCSEA East's bus catchment covers all East-side condos here; the school bus delivers her in 22–32 min depending on the route, well under the 40-min ceiling. **Action item:** email uwcseaeast@uwcsea.edu.sg with the shortlist before signing — their actual route map for the 2026–27 academic year decides this.
- **What to skip.** Pasir Ris / Simei would save 5–10 min for Aadya (handled by the bus anyway) but add 10–15 min to the office commute and are not noticeably cheaper for the same spec. The Bedok Reservoir cluster is genuinely the right cluster for this household.

How to see new listings daily

The most reliable feed is each portal's **own** saved-search email alert — they push the moment a new listing matches. Set up all three so nothing slips through.

PropertyGuru

- Open propertyguru.com.sg → filter: District 16, 3 BR, max rent S\$6k, min size 1,350 sqft, unfurnished/partial
- Sign in (free account)
- Click **Save search** above the results
- Toggle email alerts → Daily

99.co

- Open 99.co → filter to D16 / Bedok Reservoir MRT, 3 BR, ≤ S\$6k
- Use the "Walking distance to MRT" ≤ 8 min slider in the sidebar
- Click the bell icon at the top → confirm email frequency

SRX

- Open srx.com.sg → condo for rent, D16, 3 BR, max S\$6k, min 1,350 sqft
- Save search (free account) → daily email digest
- SRX is best for the X-Value benchmark — tells you if a listing is over-priced

Tip: the same handful of agents tend to repeat across listings in this cluster. Save their names from the digests and WhatsApp them directly — many landlords renew with the same agent, so the agent often has off-market units before they hit the portals.

Pre-viewing checklist (print and take to each viewing)

- Helper's room: door, ventilation, window, attached WC — actually attached, not down the hall
- Town gas: is the stove gas or induction? If gas — turn it on and confirm flame
- AC: turn on every unit (master, kids, living, helper) — listen for compressor, check for water dripping
- Ceiling fans: present in living, master, kids? Working?
- Curtains and blinds: included? Recent? Cleaned?
- Washing machine: included? Brand and approximate age?
- Plug points: count in kitchen, living, study, master — adequate for our appliances + chargers?
- Water heaters: storage or instant? Per bathroom?
- Windows: do they open? Bug screens?
- Balcony: walk on it — water-tight? Drain working?
- View: is the "reservoir view" actually visible from the unit, not just the block?
- Noise: open the windows for 60 seconds — traffic, construction, neighbours?
- Mobile signal: check 4G/5G inside every room before agreeing
- Storeroom / bomb shelter: condition and accessibility
- Condo facilities: pool, gym, BBQ pits, function rooms — what hours, what cost extra?
- Parking: included? How many lots? Visitor parking?
- Bicycle parking: covered? Secured?
- Walk to MRT: actually do the walk with phone timer at peak hour
- Walk to nearest supermarket / wet market / clinic
- Confirm with agent: landlord stay-in or overseas? Maintenance handled by whom?
- Lease terms: 2 years confirmed? Early termination clause? Diplomatic clause?
- Deposit: usual is 2 months. Confirm refund timeline at lease end.

Commute reality check

Rajul → 71 Robinson Road

Telok Ayer MRT is on the Downtown Line (blue), ~3 min walk from 71 Robinson Road. Bedok Reservoir → Telok Ayer is a direct 21-min ride, no transfers. Door-to-door from the Bedok Reservoir cluster is roughly 26–33 min including walks.

Costa Del Sol alternative: Bayshore TEL or Tanah Merah EWL — both within walking range. Bayshore → Marina Bay TEL → walk, or Tanah Merah → Telok Ayer with one transfer at Tampines or Bugis = 22–28 min. Slightly faster than Bedok Reservoir.

Aadya → UWC East (1 Tampines St 73)

Rule: School bus only — no MRT+bus transfers for an 11-year-old. UWC East is not in walking distance of any MRT, so the school bus is the only sensible option from every condo on this list. ≤ 40 min door-to-door is the agreed ceiling.

Bedok Reservoir cluster: typically 25–32 min school-bus pickup. Costa Del Sol (Bayshore): 22–28 min. Tampines condos (Tropica, Tropical Spring): 10–18 min — direct public bus (34 / 69 / 293) is also viable from there if school-bus seats are full.

Critical action: email uwcseaeast@uwcsea.edu.sg with the shortlist and ask which condos are on existing bus routes for the 2026–27 academic year. If a condo is off-route, get the cost / waiting list situation in writing before signing the lease.
